

Delivering **reliable** solutions

Success story

## Event Management

Our specialist events and exhibitions team are always on hand to make your event logistics hassle free. SAE will always meet your need for unusual deliveries, awkward locations or time sensitive emergencies.

Whether you want worldwide collections, expert storage, stock management, dedicated pick and pack or safe and timely transport, we have all of your event requirements covered.

### Undercover operations

When the call came in with a rather unusual request to install 20 fibre glass Kangaroos around famous landmarks in London – all before 6am – SAE jumped at the chance to put their specialist skills to the test.

SAE offered their unique expertise to recommend the best locations, how to secure and move the heavy and awkward statues, as well as put all the necessary permissions in place. All the kangaroos needed to be in place at the same time to create the WOW factor lapped up by local and national media. After the event the individually designed roos were transported safely to their new homes back “down under”.

*“I cannot recommend SAE highly enough. We gave them a tough challenge which they met head on, without fuss. They provided services far beyond those we would have expected from a logistics company and I wouldn't hesitate to use them again”*

**Laura Davies, Events Co-ordinator**

With a long history of successful event projects in their portfolio, SAE are expertly placed to bring our vast experience to your event:

- Shipping hot air balloons for well-known F1 teams
- Transporting, erecting and dressing exhibition stands, including packing thousands of goodie bags
- Full event consultancy and planning for complex and multi-faceted projects
- Transporting high value, high profile, oversized objects
- Sourcing of unusual promotional items
- Security and staffing at a wide range of events

From moving a full size Batmobile, to complete event management for your company conference or exhibition requirements, we have a multitude of happy clients who have benefited from our specialist service.

# Success story

## Event Management

Our **Pre-event** advice is always second to none. By having a specialist logistics partner at your side, who will respond any time of day or night, your budget will always go on putting the wow factor into your event.

**Mid-event** we will always be on hand to re-stock or deliver any additional equipment you may need. **Post-event** we will not only break-down your equipment, but also check the condition and deliver it safely back into storage too.

### Taking events out on the road

When a major firm runs public events, it's not just the logistics that need careful planning. SAE were asked to organise a series of promotional seminars across the UK's major universities.

SAE were tasked with advising the most cost effective schedule, assisting with AV requirements, transporting and erecting of event stands, packing and supplying hundreds of goodie bags and taking care of all the storage arrangements. Going that extra mile they also supplied ushers and security staff for all of the events.

*"SAE took all the hassle out of each event. They worked closely with every venue and ensured that absolutely everything went to plan."*

**Danni Brace, Events Manager**

### No job too big for SAE

Careful planning, risk assessments, close liaison with venues, staffing requirements and unprecedented personal attention is all in a day's work for our event team.

From the simplicity of a projector couriered to a small meeting room, to specialist equipment designed and supplied to move unusual items, SAE have done it all! Our team absolutely relish a challenge and there really is NO event request we won't turn our hand to.

Contact us today to find out how we can turn your requirements into your next big success.
